TO ARCHITECTS, BUILDERS, CONTRACTORS, &c.

HARTLEY'S PATENT ROUGH PLATE GLASS,

1-8th thick, or 21bs. to the foot; 3-16ths, or 3 lbs.; and 1-4th, or 4lbs. to the foot, for

RIDGE AND FURROW ROOFS, GREENHOUSES, RAILWAY STATIONS, ENGINE SHEDS, MILLS, MARKET HALLS, AND PUBLIC BUILDINGS GENERALLY.

It being universally admitted that Glass in Roofs of a permanent character should not be less than one-eighth of an inch thick, weighing two pounds to the foot, Messrs. JAMES HARTLEY and CO. have directed their attention to the manufacture of a description of

ROUGH PLATE GLASS THAT COMBINES SIZE AND STRENGTH WITH ECONOMY OF COST.

The PATENT ROUGH PLATE is manufactured in sheets expressly for Ridge and Furrow Roofs, giving a span of from 9 to 13 feet, at a price not exceeding wrought fine weight that of common Crown Glass. Not being transparent, blinds are unnecessary, and when used in Greenhouses no scorching occurs; its NONTRANSPARENCY and strength render it eminently suitable for the tilleting of Common stories and Roofs of all kinds; also Factories, Workshops, &c., for which purposes it is supplied in squares of all sizes, from 9 by 6 inches and upwards.

For further information apply to Messrs. JAMES HARTLEY and CO., Wear Glass Works, Sunderland

N.B.—The Patent Rough Plate is supplied at a much lower cost than the common Rough Plate.—May 1, 1857.

GLASS FOR CHURCHES, CHAPELS, SCHOOLS, &c.

HARTLEY'S PATENT QUARRY GLASS,

of three thicknesses, in long lengths: an economical substitute for lead lights. The attention of Architects, Builders, and others is particularly requested to this beautiful article; samples of which may be seen at

JOSEPH CHATER AND SON'S, ST. DUNSTAN'S-HILL, TOWER-STREET, LONDON.

GLASS IN EVERY VARIETY MANUFACTURED

FOR SHOP FRONTS, WINDOWS, AND HORTICULTURAL PURPOSES.

THOMAS MILLINGTON, IMPORTER AND DEALER, 87, BISHOPSGATE-STREET WITHOUT.

GLASS.

SHEET GLASS, 16 oz. to the foot, in 100-feet Boxes, and many other sizes, at 12s. each, box included.

12 by 04	12 by 24	13 by 13	17 by 12	19 by 14	22½ by 20
14½ by 20	12 by 16½	16 by 14	20 by 16	15 by 10½	24½ by 15

Cases in large sheets superior, for Shop Fronts or cutting up, in either 100, 200, or 300 feet cases, at 20d. per 100 feet, or 2½d. per foot.

ROUGH PLATE GLASS, for Skylights, Conservatories, and Pavements, from 1 in. to 1½ in. thick. Estimates given for Plate Glass and Patent Plate, for Shop Fronts, &c.

SLATES AND TILES, with every article, on the lowest terms.

MILLED SHEET LEAD, PATENT LEAD PIPE, SOIL PIPE, COCKS, WATERCLOSETS.

VARNISHES AND COLOURS.

GENUINE WHITE LEAD, BRUNSWICK GREENS, BLUE, CHROMES, PAINTERS' BRUSHES, GLAZIERS' DIAMONDS AND TOOLS.

PORTLAND CEMENT, in Casks of Four Imperial Bushels. QUANTITY, NOT WEIGHT, BEING THE STANDARD.—CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

PORTLAND CEMENT WORKS, NORTHFLEET, KENT.—Messrs. ROBINS and CO. solicit the attention of their friends and the public to their superior Cement, confident that the great improvements in the manufacture thereof during the present year will more fully than ever, in consequence of that increase with which they have so long been favoured, enable them to execute orders received at the Works, and at Great Scotland-yard, Whitehall.

March, 1857.

ATKINSON'S CEMENT, so long known and highly esteemed in London, for plastering purposes is a quick setting cement that requires no colouring.—Sold exclusively by JOHN BAZLEY WHITE and SONS, Millbank street, Westminster; and Seel-street, Liverpool.

KEENE'S and PARIAN CEMENTS and FRENCH PLASTER for internal use.—These well known and successful dry quickly, and can be painted upon within a few hours. Made and sold by JOHN BAZLEY WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT is the cheapest, because the best Cement for external uses. As a stucco, it requires no colouring, does not vegetate and is not affected by frost. As a mortar for brick-work, it may be mixed with three to four parts of sand: and, for concrete, it will carry ten to twelve times its volume of sand and gravel.—Manufactured by JOHN BAZLEY WHITE and SONS, 17, Millbank street, Westminster, and Seel-street Liverpool.

PORTLAND CEMENT.—JAMES WESTON, having commenced manufacturing the above Cement, begs to inform the trade in general that he can supply them with any quantity they may require, either at his Works, Mill wall, Poplar; St. Andrew's Wharf, Earl-street, Blackfriars; or Middle Scotland-yard, Westminster.—Manufacturer of Roman, Lias, and Mastic Cements, French and English Plaster, &c.

PORTLAND CEMENT.—The difficulty of procuring this valuable Cement of uniform colour and strength has hitherto prevented its more general use. Contractors and Builders will find that these two important qualities may be depended on with the greatest certainty in that manufactured by CHARLES J. HILTON, at his Roman and Portland Cement and Plaster of Paris Works, Faversham, Kent, at which place, as also at his Wharfs in London, 6, Upper Thames-street, City, and Great Scotland-yard, Westminster, orders can now be received to any extent.

6, South Wharf, Paddington.

PORTLAND CEMENT.—CHARLES RICHARDSON has the greatest confidence in introducing to the trade the above superior CEMENT, being of uniform colour and quality in deleterium never before attained in Portland Cements. It possesses extraordinary constitutional qualities, from the action of frost and heat, and is more durable than any other Cement; does not vegetate, turn green, or crack; combined with which its eminent hydraulic properties stamp it at once as the first cement of the day for work where all the above qualities are requisite. It is manufactured on the only principle Portland Cement can be, and contrary to the statements put forth by those who have hitherto had the monopoly. Manufactured by R. R. GREAVES, Esq. at his Works, near the River Avon, and sent to all parts of the kingdom per boat or rail, at a reduced price to the trade.

ROMAN and OTHER CEMENTS. Manufactured by J. M. BLASHFIELD, successor to the Patentees, PARKER and WYATT, who, in 1796, first introduced PARKER'S ROMAN CEMENT; also Terras and Portland Cements, English and French Plaster, Terra Cotta Chimney Pots, Trusses, &c.

Manufactory, Mill Wall, Poplar; Depôts, Commercial-road, Lambeth, and Paddington-basin.

Great Scotland-yard, Whitehall.

THE CO-PARTNERSHIP lately subsisting between ROBINS, ASPDIN, and COX, having been DISSOLVED on the 7th day of November last, by a decree of his Honour the Vice-Chancellor Turner, and an injunction granted, restraining William Aspdin, then of Upper Rivers, Northfleet, Kent, from intermeddling with, or receiving or disposing of any of the moneys, property, or assets of the said late partnership, and from using or pledging the name thereof for any purpose whatsoever: Messrs. ROBINS and COX, being alone authorised to wind up the affairs of the late Co-partnership, request the Creditors of the late Firm forthwith to render their accounts, that the same may be discharged; and the Debtors to the late firm will be required, at their convenience, to pay their accounts, either at the Cement Works, Northfleet, Kent, or at Great Scotland-yard, Whitehall, where Messrs. ROBINS and COX continue to carry on their Manufacture and Trade in Portland Cement, in connection with Messrs. Goodwin and Schmidt, under the style or firm of ROBINS and COMPANY.

PARIAN CEMENT for internal use, to be PAINTED IN A FEW HOURS AND PAPERED WITHIN A COUPLE OF DAYS.—CHARLES FRANCIS and SONS, Patentees, Nine Elms, London.

GEORGE and THOMAS EARLE, CEMENT MANUFACTURERS, HULL. Light and Dark equal to any made. Also, Manufacturers of PLASTER, MASTIC, Importers of MARBLE and PORTOLANA. Dealers in Slates, Slabs, Hair, Whiting, &c.

MEDINA (ROMAN) CEMENT.—The material of which this cement is made is obtained in the Isle of Wight. It has all the properties of the Sheppy stone, but is much better adapted to engineering works from the rapidity with which it sets and hardens under water. It has been long used at the great Breakwater at Cherbourg, in a similar work at Aldernay, and at Dover New Pier, to unite the masonry. The foundations of the centre pier of the Tubular Bridge at Menai Straits is laid in Medina Cement. A new groyne at Sandown Bay, Isle of Wight, has been constructed of no other material but this cement and sea shingle. The work extends 300 feet into the sea, and is exposed to the heaviest gales of the Channel, in a position where every former construction had been repeatedly washed away. The incontrovertible of the varied qualities of Roman Cement are superseded by the use of this improved manufacture.

CHAS. FRANCIS and SONS, Nine Elms, London; or West Medina Mill, Newport, Isle of Wight.

Agent for Southampton, R. L. FLUDER, American Wharf.

PERMANENT STUCCO WASH, WITHOUT SIZE OR OTHER CORRUPTIBLE INGREDIENT.

As used at St. George's Hospital, Hyde Park Corner

JOHNS and CO. having effected some important improvements in the manufacture of this very useful material, confidently offer it to the notice of the Trade and the Public generally, as possessing every advantage over the common Lime Wash or Water Colour for STUCCO or BRICK WORK. It is a Stone Colour, but may be tinted to any other.—DOES NOT WASH OFF.—Is perfectly dry in twenty-four hours, and, being a non-absorbent, is admirably adapted for Railway Stations, Union Workhouses, Barracks, Schools, Prisons, &c. One cwt. will cover 300 square yards. It will keep good for years, and MAY BE EXPORTED WITH PERFECT SAFETY.

JOHNS and CO.'S STUCCO CEMENT.—This cement, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind: it has no caustic qualities, may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water.

The merits of the PAINT are well known for its application to stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agents, PHILIP HARE and Co. at the Warehouse, 36, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

NOTICE.—PATENT PORTLAND CEMENT. Mr. W. ASPDIN, the sole manufacturer and first introducer of the Patent Portland Cement, for which he obtained the Prize Medal in Class E, at the Great Exhibition, begs to inform Engineers, Architects, Contractors, Builders, and others, that he has Dissolved Partnership with the late firm of Robins, Aspdin, and Co. and to call their attention to the following notice from his present firm:—Messrs. ASPDIN, ORD, and Co. having taken extensive premises for the purpose of carrying on the manufacture of Patent Portland Cements, have the pleasure of announcing that the Cements may be had in the course of next month at their Depôt and Offices, NEW WHARF, WESTMINSTER, adjoining the Houses of Parliament, in the various qualities as under:—

1st. For mixing and running Mouldings.
2nd. For Brickwork or making Concrete Blocks for Sea Walling.
3rd. For Plastering outside of Buildings, and for Paving generally.
4th. For Water-works.

The above Cements are all warranted not to blister, crack, or discolour, as is the case with other Cements wrongly called Portland. The particulars of the experiments as tested at the Great Exhibition may be had at the Offices, New Wharf, Westminster.

GREAVES'S BLUE LIAS LIME.—The superior manner in which the above is ground renders it cheaper for concrete or stucco than any other lime or cement. The shell lime for mortar is burnt on an improved principle, leaving scarcely any core. The satisfaction constantly expressed by Engineers, Architects, and Contractors, of the above, is the best recommendation.

Offices, Canning, and Co's Blue Vitrified Bricks, Pipes, Junctions, Bends, and Fire Goods.

ROMAN, PORTLAND, PARIAN, ANSTON, and LIAS CEMENTS of the best quality.

BEVOIS, PATIENCE, STOCKS, and other Bricks.

CHARLES RICHARDSON, 6, South Wharf, Paddington.

THOMAS FREEN and CO. LIME BURNERS, Wouldham-on-the-Medway, Grey and Chalk Lime supplied by the firm, direct from the kilns, or fresh from their wharfs, 4a Cross-road, Kingsland-road; Queen's Wharf, Great Chamberbridge-street, Bow-creek; or King's Wharf, New Wharf-road, Battle-bridge.—N.B. Bricks, Tiles, Chimney-pots, Plaster, Hair, Welsh Goods, &c. &c. &c.

NEW PATENT SHEET GLASS, sold in cases, containing 2 sheets, 40 inches long by 26 inches wide—100 feet, at 2l. 2s. per case, net cash. Especial attention is directed to the size, 40 by 26 inches, containing 13 superficial feet, and weighing about 13 oz. to the foot, which is the largest ever made.

SHEET GLASS, 16 ounces to the foot, packed in boxes, containing 100 feet, from 12s. 6d. per box.

FOREIGN SHEET GLASS, of very superior quality, packed in cases of 100 feet, and in sizes varying from 36 by 28 to 44 by 30 inches, at 22s. and 24s. per case.

HARTLEY'S PATENT ROUGH PLATE GLASS, for Conservatories, Public Buildings, Manufactories, Skylights, &c. ¼ inch thick. Packed in boxes of 50 feet each.

6 by 4 and 6 by 5 ..... 18s. 6d. | 7 by 5 and 7½ by 5½ ..... 22s. 6d.
6 by 6 and 6 by 6½ ..... 18s. 6d. | 9 by 7 and 9 by 8 ..... 13s. 6d.

HARTLEY'S PATENT QUARRY GLASS, Glass Tiles, ¼ of an inch thick, 2l. 10s. per case of 50, case included.

JAMES PHILLIPS and CO. 116, Bishopsgate-street Without, London.

PATENT and BRITISH PLATE GLASS.—JAMES HETLEY and Co. beg to inform Architects, Builders and the Trade generally, that their new Tariff of Prices for the above will be sent on application; they will also, on receipt of particulars, furnish estimates for any description of Glass now manufactured—Patent Plate, Sheet, Crown, and Ornamental Window Glass Warehouse, 33, Soho-square, London.

CHEAP ORNAMENTAL GLASS.—I beg to inform my friends and the public that I have now completed a new ENGINE and, owing to the facility with which I can execute orders, I am enabled to reduce my former prices considerably. The prices are now from ONE SHILLING PER FOOT SUP. and Borders from SIXPENCE PER FOOT SUP. A large quantity of the cheapest patterns always in stock. Embossing and painted work on the most moderate terms.—CHARLES LONG, No. 1, King-street, Baker-street, Portman-square.—Cash only.

E. and W. H. JACKSON beg to call the attention of Builders and the Trade to the LOW PRICES of their PATENT PLATE GLASS, BRITISH PLATE, offered and for glazing, of unrivalled quality and finish. ROUGH PLATE, CROWN, SHEET, COLOURED, and ORNAMENTAL GLASS, in every variety, of the best manufacture, at the lowest terms. Designs and estimates furnished for ornamental windows, either for houses or church decorations. All applications for estimates and lists of prices to be made at their warehouse, 314, OXFORD-STREET.

TO BUILDERS, PLUMBERS, &c.

JAMES MILES'S cheap ENGLISH and FOREIGN WINDOW-GLASS WAREHOUSE, 10, Church-street, Shoreditch, near the Eastern Counties Railway Terminus. Cases of foreign sheet, various sizes, 21s. 26s. per box; crates of 14 to 16 cks. 10½. per foot; good crown C C C, 15s. 20s. and 24s. per crate; patent plate; Hartley's ROUGH PLATE; stained, frosted, and ornamental glass; cut to squares of every size in stock; sheet lead; pipe; patent gas pipe; solder and plumbers' brass work of all kinds; white lead, oils, and colours, at low prices; LARGE STOCK of PAPER-HANGINGS of odd lead bought in any quantity, or taken in exchange. Sashes glazed and primed in all or any low prices, in any quantity.

REDUCTION IN THE PRICES OF PLATE GLASS.—The Union Plate Glass Company respectfully inform the trade and the public generally, that they have revised their tariff of prices, and made considerable reductions thereon. The new lists may be had on application at the Works, Pocket Nook, St. Helens. Warehouses, 24, Hatton-garden, London; 11, York-street, Manchester; 18, South John-street, Liverpool. Messrs. C. and J. MULLICK, 20, Turner's-court, Glasgow; JOHN DIX and CO. Bath-street, Bristol.

NEW DECORATION.—S. K. BLAND begs to call the attention of gentlemen, architects, and the furnishers of first-class mansions and public buildings, to his newly-invented "CHROMO-CRYSTAL DECORATION"—a brilliant and permanent process, of great beauty and extensive applicability in mural ornamentation, panels, table tops, &c. &c. Specimens may be seen at his Ornamental Glass Works, 15, Lumley-grove, South Hampstead, and at the Office of "The Builder," 1, York-street, Covent-garden.

WINDOW BLINDS.—TYLOR and PACE, Window Blind Manufacturers, 313, Oxford-street, adjoining Hanover-square, and 1, Queen-street, Cheapside, London, submit the following PRICES of WINDOW BLINDS, which they can recommend as being made in the best manner. Venetians blinds, per square foot, 6d.; best linsey blinds, on rollers, 6d.; best diaper, on spring rollers, 8d.; gauze wire blinds, in mahogany frames, 1s. 10d.; perforated zinc blinds, in ditto, 1s. 6d.; outside blinds of striped cloth in canvas, 1s. 3d. Transparent blinds in great variety. Observation, with prices and discounts to builders and the trade, forwarded on application, post free.

LIGHTERAGE.—To Saw-Mill Proprietors, Timber, Slate, and Stone Merchants, or others, requiring Lighterage.—The Advertiser, having a large number of Barges, is willing to undertake LIGHTERAGE at prices that defy competition.—CHARLES STRUTTON, 24, Commercial-road, Lambeth.
